

## Fire & Flood

## News Flash OCTOBER 2012

### ACD Shelter Solutions

Global market leader ACD Shelter Solutions has chosen Fire Fighting Technologies to represent them in Australia and New Zealand.

ACD Shelter Solutions designs and manufactures high performance inflatable shelters. The unique design and construction of the shelters offers portability and quick deployment combined with strength and rigidity. By using the latest technology, the best results in fixture and bonding are obtained making the products durable and reliable.

ACD Shelters have been used for more than 20 years as base camps during emergencies, command posts, triage/decontaminating rooms, field hospitals, custom storages, vehicle workshops and helicopter/aircraft hangars. Users include fire brigades, defence and police forces, rescue services, UN and NATO forces and non-governmental organizations. ACD shelters meet all the standard requirements for military use.
