

FloodBreak® Pedestrian Gate

Passive Automatic Flood Barriers

Permanent Flood Protection. 24/7 Access.

The FloodBreak® Pedestrian Gate is a passive flood barrier that deploys automatically, without human intervention or power, to provide 24/7 flood protection for pedestrian pathways and entrances.

HIGHLIGHTS:

- Permanent flood protection
- Proven performance
- Full access to your facility
- Long service life
- Minimal maintenance
- Low total cost of ownership

APPLICATIONS:

- Doorways
- Walkways
- Floodwall openings
- Building vestibules
- Campus paths
- Staircases

**No People, No Power
24/7 Confidence**

- Fully automatic, 24/7 passive flood protection.
- Hidden below grade to allow full pedestrian access.
- Can blend with surroundings.
- Passive mitigation measure - preferred by FEMA.
- Certified by an Independent Professional Engineer.

Revolutionary Flood Control

The FloodBreak Automatic Floodgate provides permanent flood protection, 24/7, without people or power.

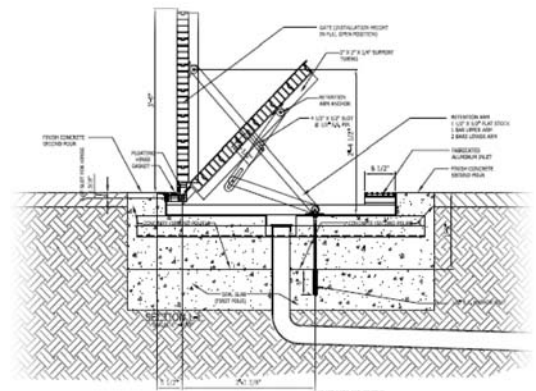

Permanently installed and nearly invisible beneath entryways, FloodBreak flood barriers protect virtually any vulnerable flood path while allowing unimpeded access to your facility.

Architectural Features

- Variety of covering materials including carpet, pavers or tile.
- Sidewalls can be any smooth surface, like granite, stainless steel or polished concrete.
- Barrier lid and wiper walls can be painted to match building walls.

Innovative Engineering Design

A simple yet effective innovation, the FloodBreak passive flood control system uses hydrostatic pressure from the rising floodwaters to automatically deploy the buoyant hinged beam and activate the self-sealing rubber gaskets.

REVOLUTIONARY FLOOD CONTROL

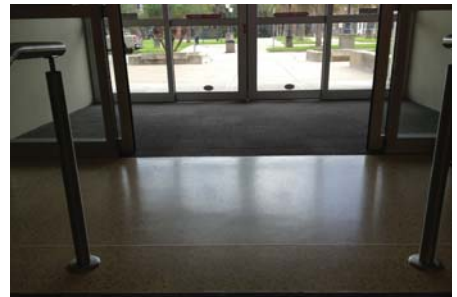

FloodBreak® Pedestrian Gate

Passive Automatic Flood Barriers

Passive automatic flood protection for entrances, walkways, staircases and pedestrian openings in

BENEFITS:

- 100% passive
- Fully automatic
- 24/7 protection
- Permanently installed
- Long service life
- No storage
- No training hassles
- Minimal maintenance
- Custom sized
- Any length or height
