

Project type: Bridge pylon and bank erosion
Location: Kholo Creek Bridge, QLD, Australia
Date: September 2020
Kyowa: 1t Kyowa Eco-Green rock bags
Client: RoadTek Brisbane / Brisbane City Council / QLD Dept of Transport and Main Roads

Summary: Kyowa rock bags were used to protect the pylons and riverbanks underneath the bridge against erosion.
The tidal Kholo Creek at Mount Crosby Road flows into the Brisbane River just south of the bridge.
